

MSHA's Accident Prevention Program Miner's Tips

Safety and
Health are
Values!

Designate Someone

Mine Type: All
Category(s): Communication, General Safety, Hoisting & Elevators, Material Handling

When a job requires moving machinery in a confined area where others are in close proximity, designate one person with the sole responsibility of communicating with the machine operator. With only 1 person communicating to the operator, focus will be on the specific communication, as opposed to others whose actions may be misunderstood.

- Ensure that nothing moves without Lefty's instructions.
- Anyone can call a halt to operations, but only Lefty can start things moving again.
- Machine operator stops the operation if Lefty is giving confusing signals or something unanticipated happens

**MSHA extends a thank you and a tip of the hardhat to
Mike Bestgen,
a winner of a limited edition sticker and patch.**

If you have a tip you would like to pass on, you can e-mail it to zzMSHA-MinersTips@dol.gov. If your tip is selected, you will receive credit in this space.
