

## MSHA's Accident Prevention Program Miner's Tip

Safety and  
Health are  
Values!

### Keep Your Mind On Your Work

Category : **Section Face Equipment**

Mine Type: **Underground Coal and Non-Metal**

Operators of remote controlled continuous mining machines have many things to do and think about.

Safety is one of many concerns for a continuous mining machine operator.

Never reposition the mining machine or tram it for a place change if you are positioned in the machine's turning radius.

De-energize the machine and remote control unit according to established safe work practices before entering the "[red zone](#)".

If you have a tip you would like to pass on, you can e-mail it to  
[zzMSHA-MinersTips@dol.gov](mailto:zzMSHA-MinersTips@dol.gov).

If your tip is selected, you will receive credit in this space.
