

proposed rulemaking. FDA provided a comment period of more than 90 days from the date—September 29, 1995—that additional documents were placed on display.) FDA provided a similar extension for the notice that set forth the jurisdictional analysis (60 FR 53620). On December 1, 1995, FDA published in the Federal Register (60 FR 61670) the results of several focus group studies that it conducted and invited public comments by January 2, 1996.

FDA is adding two documents to the administrative record that further explain the basis for certain provisions of the proposed rule. The agency is providing the public an opportunity to comment on them.

FDA believes that 30 days to comment is ample in this case, as the agency is specifically limiting its reopening of the comment period to comments on the documents being added. Comments are invited, and will be considered, only to the extent they are focused on the information being newly added to the record and only to the extent the comments regarding such information raise new issues not already raised by the person submitting the comment.

The documents being added to the record are as follows:

1. Food and Drug Administration, Memorandum to the Record: Section 897.32—definition of adult publications, March 11, 1996.

2. Food and Drug Administration, Memorandum to the Record: Section 897.30(b)—billboards, March 11, 1996.

Interested persons may, on or before April 19, 1996, submit to the Dockets Management Branch (address above) written comments regarding the documents described above. Four copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: March 15, 1996.

William B. Schultz,

Deputy Commissioner for Policy.
