

June 19, 2007

In the matter of  
FMC Corporation  
FMC @ Granger Mine  
ID No. 48-00639

Docket No. M-86-014-M

PROPOSED DECISION AND ORDER TO REVOKE

On July 1, 1988, FMC Corporation formerly (TG Soda Ash, Inc.) was granted a variance of Title 30 Code of Federal Regulations (30 CFR) § 57.4761 pursuant to Section 101(c) of the Federal Mine Safety and Health Act of 1977, based upon an alternative method of compliance. The variance allowed the use of air coursed through the shop to ventilate other areas of the mine.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

Mine Safety and Health Administration (MSHA) Rocky Mountain District personnel have determined that the mining conditions have changed in that the mine was permanently closed on June 7, 2007. The modification of 30 CFR § 57.4761, therefore, is no longer necessary.

ORDER

Wherefore, pursuant to the authority delegated by the Secretary of Labor to the Administrator for Metal and Nonmetal Mine Safety and Health and pursuant to Section 101(c) of the Federal Mine Safety and Health Act of 1977, 30 U.S.C., Section 811(c), it is ordered that FMC Corporation's modification of 30 CFR § 57.4761 as it pertains to the FMC @ Granger Mine, is hereby:

**REVOKED.**

/s/ Felix A. Quintana
