Docket No. M-91-004-M

PROPOSED DECISION AND ORDER TO REVOKE

On October 4, 1991, AmeriCold Logistics LLC (AmeriCold) was granted a petition for modification of 30 CFR § 57.4761, pursuant to Section 101(c) of the Federal Mine Safety and Health Act of 1977, based upon an alternative method of compliance. The granted petition allowed the installation of two 3-hour rated Atlas Roll Lite fire-resistance fire doors in lieu of the required fire control doors or bulkheads.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

MSHA Rocky Mountain District personnel determined that the mine was abandoned on April 26, 2006. Consequently, modification of the mandatory standard is no longer needed.

ORDER

Wherefore, pursuant to the authority delegated by the Secretary of Labor to the Administrator for Metal and Nonmetal Mine Safety and Health and pursuant to Section 101(c) of the Federal Mine Safety and Health Act of 1977, 30 U.S.C., Section 811(c), it is ordered that AmeriCold Logistics LLC's modification of 30 CFR CFR § 57.4761 as it pertains to fire control doors at the Inland Quarries LL Mine, is hereby **REVOKED**.
