IMPORTANT SAFETY NOTICE

INFORMATION BULLETIN NO. 95

TO:	OWNERS OF J.H. FLETCHER & CO. LTDO SINGLE-BOLT ROOF DRILLS
FROM:	J.H. FLETCHER & CO.
DATE:	MARCH 2004
SUBJECT:	DRILL CANOPIES FOR LTDO ROOF DRILLS

J.H. Fletcher & Co. now has a larger drill control canopy for single-bolt LTDO roof drills only. The 8" canopy extension provides additional protection from objects falling from the roof, but does not provide lateral protection against objects falling from the rib or brow.

This new canopy is a safety enhancement that can be added to outside control roof drills. The canopy will provide additional overhead protection for the operator when the mining environment will allow this added coverage.

Fletcher strongly recommends that if you own an LTDO roof drill, you switch to this enhanced safety design. The new certified canopy will continue to provide coverage from roof falls to reduce the risk of serious injury or death.

To order the larger canopy, call Fletcher's service department, or an authorized distributor; provide the serial number of the machine you want to install the canopy on and request part no. 374328.

If you no longer own or operate a Fletcher single-bolt LTDO roof drill that is affected by this notice, please complete the "Inactive Equipment Status Form" or notify the Fletcher Risk Management Department by phone at 304/525-7811 or by email at dcooper@jhletcher.com.

If you have any questions about your machine, the applicability of this bulletin to your machine, or any other safety issues, please contact Fletcher's Service Department or Risk Management Department, or your local Fletcher Field Representative.
