

**120-PSI "CROSSCUT" SEALS - FOIDEL CREEK MINE
MSHA SEAL APPROVAL NUMBER 120-75.336.1.07.09.0**

120-psi "Crosscut" Seals - Foidel Creek Mine

Details on the seal design are provided in a report entitled "Design of 'Crosscut' Seals for the Foidel Creek Mine, TCC," dated August 10, 2007. The seal design applies specifically to seals constructed in the crosscuts of longwall-panel gateroads in Foidel Creek Mine.

This mine-specific design is a proprietary design of Peabody Investments Corporation. The design is certified by a professional engineer as being in accordance with current, prudent engineering practice.

MSHA seal approval number 120-75.336.1.07.09.0 was issued on August 15, 2007.
