Subject: Correction to the Comments of the MARG Coalition on the DPM Standard

Pursuant to our conversation, I am [attaching a corrected version](#) of the comments the MARG coalition filed with MSHA on April 5, 2004. The correction is of a minor formatting error on page 7. Paragraph 2 was set off as a block quote and placed in quotation marks in the original comments. It should have been a paragraph of regular text. Please make this change in the official comments. The corrected comments are attached as a word document below. Thank you, and please call me at (202) 457-5263 if any further action is required on our part.
