

**AGREEMENT RENEWING THE ALLIANCE  
BETWEEN  
THE MINE SAFETY AND HEALTH ADMINISTRATION  
U.S. DEPARTMENT OF LABOR  
AND  
THE NATIONAL MINING ASSOCIATION**

The Mine Safety and Health Administration (MSHA) and the National Mining Association (NMA) recognize the value of continuing a collaborative relationship to foster safer and more healthful working conditions at the Nation's mining and milling operations.

MSHA and NMA hereby renew their Alliance to provide coal and metal and nonmetal mining personnel with information, guidance, and access to training resources that will help protect the health and safety of those working at coal and metal and nonmetal mines, and in preparation plants and mills.

MSHA and NMA will work together to achieve the following education and training goals designed to improve worker health and safety:

- i. Provide information, education, training, and technical assistance to raise safety and health awareness within the coal and metal and nonmetal mining industry and to help prevent injuries and illnesses and protect worker safety and health.
- ii. Conduct annual summary analyses of incidence rates for coal and metal and nonmetal mines, preparation plants and mills, and perform worker injury and illness case studies to identify hazardous safety and health conditions and practices.
- iii. Analyze injury, illness, and citation data to develop education and training tools to improve injury and illness incidence rates.
- iv. Develop education and training programs for operator and contractor employees working at coal and metal and nonmetal mines and in preparation plants and mills.
- v. Develop and share best practices and effective approaches to improve operator and contractor safety and health at coal and metal and nonmetal mines and in preparation plants and mills.
- vi. Collaborate on emergency response, rescue and recovery techniques for facility operations located at coal and metal and nonmetal mines and in preparation plants and mills.
- vii. Develop resources to support excellence in mine rescue preparedness and keep current a centralized data bank of mine emergency preparedness capabilities, equipment, and resources that will be available to mine safety personnel in the event of a mine emergency.

MSHA and NMA will strive to achieve the following outreach and communications goals:

- i. Provide statistical information regarding injuries and illnesses that occur in coal and metal and nonmetal mines and in preparation plants and mills.
- ii. Develop and disseminate information on worker safety and health issues at conferences, events, or through print and electronic media, including links from MSHA's and NMA's websites.
- iii. Raise awareness and demonstrate commitment to worker safety and health whenever MSHA or NMA leaders address groups.
- iv. Convene or participate in workshops, conferences, roundtable discussions, or stakeholder meetings to forge innovative solutions to worker health and safety issues.
- v. Collaboratively exchange timely information on injury and employment data.
- vi. Publicize results of worker injury and illness case studies through print, electronic media, promotion at conferences, or other means of outreach.

A team of representatives from both organizations will meet to update previously established plans, procedures, and participants' roles and responsibilities.

NMA is authorized, with MSHA's approval, to use the MSHA Alliance Program logo on documents, webpages, and other products related to or created under the Alliance for as long as the Alliance remains in effect and in accordance with MSHA's "Guidance on the Use of the Alliance Program Logo" on the MSHA Alliance Program webpage (<https://www.msha.gov/support-resources/alliances-mous>). In particular, the logo may not be used to give the appearance that an Alliance Program participant's or other website is part of MSHA's website. The logo must not be used for fundraising or lobbying efforts, or to imply that MSHA endorses a particular entity or its actions or products. Before the Alliance Program logo is used, MSHA and NMA must approve all materials and products developed under this Alliance. When possible, all documents or other products bearing the logo must include the following statement:

This product was developed as part of the MSHA Alliance Program. It does not necessarily reflect MSHA's official views. Use of the Alliance Program logo is reserved for MSHA and its active Alliance partners. The MSHA Alliance Program promotes miner safety and health through voluntary partnerships that provide training and education, outreach, technical assistance, and a national dialogue on mine safety and health. For more information, visit the MSHA Alliance Program webpage (<https://www.msha.gov/support-resources/alliances-mous>).

MSHA and NMA will provide all services, products, and resources related to or created under this Alliance without reimbursement from the other party.

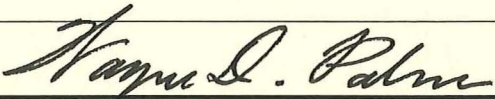

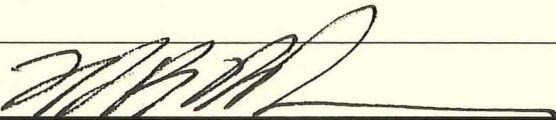

This Alliance creates no private right of action against the Federal Government or NMA. This Alliance creates no rights in any third party.

This Alliance is subject to the availability of funds. This agreement will not be construed as obligating funds. Nothing in this agreement obligates MSHA to expend appropriations or enter into any contract or other obligations.

Nothing in this Alliance shall limit, supersede, or otherwise affect MSHA's normal operations or decisions in carrying out its statutory or regulatory duties. This Alliance does not limit or restrict the parties from participating in similar activities or arrangements with other entities. This Alliance also does not limit or restrict the parties from taking any other necessary action.

The legal authorities for this Alliance are 30 U.S.C. §§ 952(a)-(c)(1) and 962.

Unless otherwise extended, this agreement will remain in effect for three (3) years. Either signatory may terminate it for any reason at any time, provided they give 30 days' written notice. This agreement may be modified at any time with the concurrence of both signatories.
