

Fatality Alert

MINE FATALITY – On February 14, 2022, a 34 year-old maintenance technician died while driving a lube truck underground. The truck over traveled the edge of a stope and fell approximately 60 feet into the stope drift.

Best Practices

- **Provide berms, bumper blocks, safety hooks, or similar impeding devices** at dumping locations where there is a hazard of over travel.
- **Examine working places** before work begins for conditions that may adversely affect safety and health.

This is the seventh fatality reported in 2022, and the third classified as “Powered Haulage.”

The information provided in this notice is based on preliminary data only and does not represent final determinations regarding the nature of the incident or conclusions regarding the cause of the fatality.

Report accidents and hazardous conditions: 1-800-746-1553
