Subject: part 77 comment

Since the advent of the 911 system in the country and the widespread use of mobile phones, I believe Part 77.1702 of 30 CFR is now obsolete. With the laws that are in place nowadays that require ambulances to respond and emergency rooms to provide assistance, there is no need for this law. Just about all places I contact for this need get a laugh at the requirement and just don't understand why the mining industry needs this requirement. Please consider removing this requirement.

Thank you,

Paul Burchett | Compliance Officer | UGM Addcar
