

Hazard Awareness Training Program

Mine ID # ___ - _____ Contractor ID ____

Date: __ / __ / __

Site-specific hazard awareness training must be given before any person specified under this section is exposed to mine hazards [[Section 46.11\(a\)](#)].

This training must be given to any person who is not a miner as defined by Section 46.2 but is present at the mine site. Such persons may include, but are not limited to, office personnel, delivery workers, and customers [[Section 46.11\(b\)](#)]. This training must also be provided to miners, such as drillers or blasters, who move from one mine to another mine while remaining employed by the same production-operator or independent contractor [[Section 46.11\(c\)](#)].

Site-specific hazard awareness training is not required for any person who is accompanied at all times by an experienced miner who is familiar with hazards specific to the mine [[Section 46.11\(f\)](#)].

The production-operator has primary responsibility for ensuring that hazard awareness training is given to employees of independent contractors who are required to receive that training. The production-operator must provide information to each independent contractor who employs a person at the mine on site-specific mine hazards [[Section 46.12\(a\)](#)]. Also, the independent contractor must inform the production-operator of any hazards they may create while working at the mine [[Section 46.12\(b\)\(2\)](#)].

Each independent contractor who employs a miner (as defined in Section 46.2) at the mine has primary responsibility for providing new miner training, newly-hired experienced miner training, new task training, and annual refresher training. Independent contractors will inform the production-operator of any hazards contractors may create by the performance of their work at the mine [[Section 46.12\(b\)](#)].

Hazard Awareness Training Program

A. Training must address site-specific health and safety risks. The training will include the following subjects or other special safety procedures, where appropriate [Section 46.11(d)].

Independent contractors who will be receiving hazard awareness training from the production-operator and will not need to provide this training to their own employees or employees of other independent contractors are not required to complete this part of the training plan.

Contractors may check here when this part is: not applicable.

1. Hazards a miner may be exposed to while at the mine, including applicable emergency procedures

Approximate Time(s): __ hours __ minutes to __ hours __ minutes

Teaching Methods:

- | | |
|---|--|
| <input type="checkbox"/> lecture | <input type="checkbox"/> demonstration |
| <input type="checkbox"/> discussion | <input type="checkbox"/> site tour |
| <input type="checkbox"/> audiovisual | other _____ |
| <input type="checkbox"/> written warnings | |

Course Training Materials:

- | | |
|---|---------------------------|
| <input type="checkbox"/> MSHA | checklist(s) |
| <input type="checkbox"/> company | signs and posted warnings |
| <input type="checkbox"/> vendor/manufacture | applicable regulations |
| <input type="checkbox"/> company rules/policies | other |

Evaluation Procedures:

- | | |
|---|-------------|
| <input type="checkbox"/> oral feedback | observation |
| <input type="checkbox"/> written feedback | other |

If other subjects will be taught to cover **site-specific health and safety risks** at the mine, the “Yes” box is checked and a completed “Health and Safety Subject(s)” page for each is attached.

- Yes No

If other subjects will be taught based on circumstances or conditions at the mine, the “Yes” box should be checked and a completed “Other Subject(s)” page for each attached.

- Yes No

Mine ID # ___ - _____ Contractor ID ___

Section 46.11

A. Health and Safety Subject(s)

(Check one subject from the following:)

- Unique geologic or environmental conditions
- Recognition and avoidance of hazards such as electrical hazards
- Powered haulage hazards
- Traffic patterns and control, and restricted areas
- Warning and evacuation signals
- Evacuation and emergency procedures
- Other special safety procedures

Approximate Time(s): __ hours __ minutes to __ hours __ minutes

Teaching Methods:

- | | |
|-------------|---------------|
| lecture | demonstration |
| discussion | site tour |
| audiovisual | other |
